Frameries, July 10th 2012

Dear Sirs,

In response to your request, it is our pleasure to write a recommendation letter for FL Technics.

Bridgestone Aircraft Tires Europe has been working with FL Technics for several years, from the very beginning of the operation. We have enjoyed and continue to enjoy an excellent level of partnership and cooperation.

The FL Technics team is always available and quick to react. They regularly demonstrate a flexible approach to any operational issues that may arise and have proven to be extremely reliable partners, even recently in less favorable economic times.

In view of the above, we would sincerely recommend FL Technics to any potential business partner.

Yours sincerely,

Thierry Contzen
Director of Sales
Bridgestone Aircraft Tire (Europe) SA
