Recommendation letter

Yamal Airlines was founded in 1997. It is based in Salekhard Airport, Russian Federation. It operates regional passenger services.

Choosing the right and loyal partner is a vital for the airline company that is why we started cooperation with the FL Technics company in 2008 year. From the first day of partnership FL Technics provides high quality services and products. They are flexible, honest and reliable.

FL Technics is our partner for technical assistance, spare parts and components repair. We already operate 7 Airbus 320, 6 Boeing 737-500 and 2 Boeing 737-400 aircraft.

FL Technics is a Boeing Goldcare partner company. It is especially important for us, because our fleet mostly consists of Boeing aircraft. That is why we are more than sure about their professionalism and reliability.

We think that FL Technics is a first choice alternative for the any airline company. They keep customer relaxed, because all tasks are made professionally, in time and quickly. No questions – only solutions.

Technical director

V. Malevankin
